

Questions, Questions, Questions!

Have you ever been told that you are here on Earth to evolve your Soul, and that you will need multiple life-times to work on it?

Do you know someone that has had a pretty rough life here, so far?

Have you heard Spiritual leaders tell you that we are all sinners and that we will pay the price in the next life, even if we manage to avoid judgement day in the earthly courts?

Have you been told that you can pray for forgiveness and have all those bad sins washed away?

Do you think that if you are “good” you will go to Heaven and if you are “bad” you will go to Hell?

What do your Mum and Dad and your Grand-Parents think? What did they teach you at school? What did you learn in your Church or from your other Religious groups?

What do your Politicians and other leaders want you to believe? Who do the Police and the Armed-Forces work for? Where do the taxes you pay go to?

Are the Businesses that we have, actually benefiting society? Do the jobs we engage in, cause us more pain than benefit? Would changing your job be worse than loosing your planet?

Do our Doctors and Health-Care workers really know how our bodies, minds and spirit work together and how they interact with each other? Do they think that the chemicals they prescribe are the answer we need? Where do the pills end up?

Would it be better to not have a Television, or Radio or Newspaper? Is the Internet a better place to find the Truth?

If God is “Good” then what is happening? If God is “Neutral” then why do we need Her?

Have you thought about how you know the answers to any Questions?

What are you SURE that you know?

How do you know for SURE?

Is the OPPOSITE also TRUE, for someone?

Is it OK?

Is it OK for the OTHER person?

Do you REALLY THINK about IT?
